

RBD PALM STEARIN

RBD Palm Stearin

RBD palm stearin for oleochemical and food applications with IV ≤ 48 and melting point 42–48°C, bags or vessel bulk from 300 MT.

Conventional

Oleochemical

- Melting point 42–48°C for oleochemical splitting
- IV ≤ 48 hard fraction specification
- 25 kg PP bags or bulk vessel loading
- 300 MT minimum order

SPECIFICATIONS

Free fatty acid (FFA)	≤ 0.1%	Minimum order (MOQ)	300 MT
Iodine value (IV)	≤ 48	Packaging	25 kg PP bags / bulk vessel
Melting point	42–48°C	Lead time	2–3 weeks from contract
Colour (Lovibond)	≤ 3R (5¼")		

TRADE TERMS

HS CODE	INCOTERMS	CERTIFICATIONS	
1511.90	FOB · CFR · CIF	ISO 22000	Halal (BPJPH)

OVERVIEW

Hard fraction from palm oil refining supplied in 25 kg PP bags or bulk vessel for soap, fatty acid, and shortening applications. Conventional line with ISO 22000 and Halal scopes.

Values confirmed per shipment on the certificate of analysis.
